Treatment for infertility? Y/N

Date of last CEM swab: \_\_\_\_\_

Any other information

Millfield Stud will make every effort to have teaser mares available for collecting semen when requested, but cannot be held responsible for delays or non-availability of semen due to unforeseen circumstances.

Semen collection fees plus charges for the packaging and transport costs are in addition to the stud fee and are charged as per the current rates detailed on the 'costs for dispatched semen page' on the website. A deposit is required to cover the first two deliveries and must be included with this form along with the stud fee. If further deliveries are required these will only be made once payment is received.

Deliveries on a Saturday may be extra.

I agree to take a nomination to the Stallion for the season and to pay the collection, packaging and transport costs as detailed on the 'costs for dispatched semen' page - unused monies will be returned by cheque after October 1.

Name of Inseminating Veterinary Surgeon:

Address:

Telephone Numbers

Name of owner:

Address:

Telephone Numbers

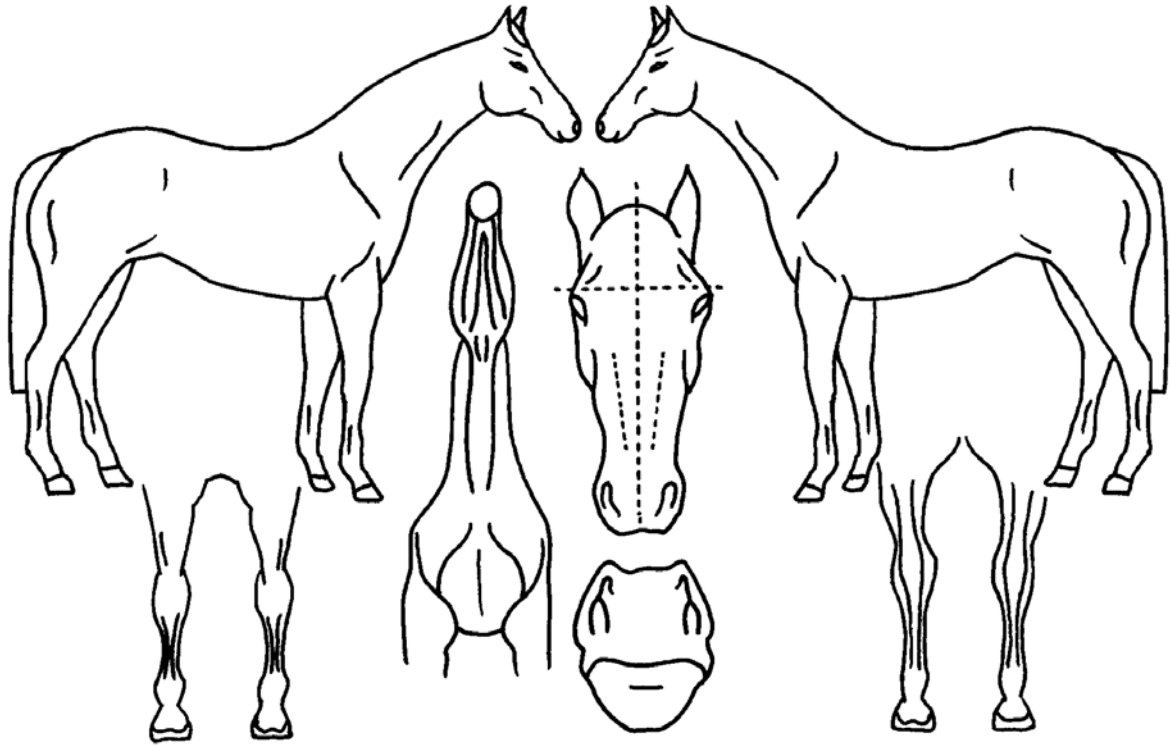

Semen terms = 3 doses per mare to achieve 1 pregnancy per breeding season unless otherwise agreed. I have read and agree to the Terms & Conditions offered by Millfield Stud in relation to artificial insemination.

Signature:

Date:

Covering certificates will only be issued once all invoices have been paid in full. Please enclose a cheque for the STUD FEE + deposit for collection and transport, made payable to Millfield Stud and send with the Nomination Form to:-

<p>Freeze Mark/Brand</p>
--------------------------

The diagram and written description must agree and must be sufficiently detailed to ensure the positive identification of the animal in future. White markings must be shown in red and the written description completed using black ink in block capitals or typescript. If there are no markings, this fact must be stated in the written description.

All head and neck whorls should be marked ("X") and described in detail. Other whorls should be similarly recorded in grey and in animals lacking sufficient other distinguishing marks. Acquired marks (" ") and other distinguishing marks e.g. prophets thumb mark (" "), wall eye. etc.. should always be noted.
